Title :	Senior High School Education Act <b>Ch</b>
Date :	2016.06.01
Legislative :	1.Enacted on July 10th, 2013 2.Amendmened on J第一章 總則
Content :	<p><b>Chapter I General Principles</b></p> <p><b>Article 1</b> Senior high school education is a continuance of 9-year national education, its ultimate purpose is to strengthen students' mind and body, to develop their potentials, to lay the foundation for academic research as well as professional skill, and to cultivate quality citizens with balanced development in five aspects of education.</p> <p><b>Article 2</b> 9-year national education and senior high school education are integrated into 12-year national education. Under the Compulsory Education Act, 9-year national education enrollment is exam-free, tuition-free and compulsory. According to this Act, senior high school education is primarily exam-free; students are voluntarily enrolled to schools based on their inclination, interest and merit, and shall be enrolled tuition-free pending on certain requirements.</p> <p><b>Article 3</b> The competent authority in this Act refers to: the Ministry of Education for the central government; governments of special municipality for the special municipality; county (city) governments for the county (city).</p> <p><b>Chapter II Establishment, Classification, and Evaluation</b></p> <p><b>Article 4</b> Senior high schools are established by the central government, governments of special municipality, county (city) governments, or by private party according to the Private School Act. Senior high schools are either national, special municipal, county (city) or private based on its main body (i.e. central government, special municipality government, city (county) government or private sectors), with its establishment, conversion, or termination stipulated according to the following regulations:  1. National: certified by the central competent authority;  2. Special municipal: certified by the municipal competent authority and reported to the central competent authority for record;  3. County (city): certified by the county (city) competent authority and reported to the central competent authority for record;  4. Private: special municipality level schools are certified by the municipal competent authority and reported to the central competent authority for record; county (city) level ones are certified by the central competent authority.  Senior high schools may establish another campus or mini-campus. Regulations of campus space, buildings, facilities, establishment budget, teaching faculties, requirements of conversion or termination, approval procedures, and other relevant matters regarding the establishment of senior high schools, their campus or mini-campus shall be stipulated by the central competent authority.</p>

Article 5	<p>Senior high schools are classified as follows:</p> <ol style="list-style-type: none"> <li>1. Regular: the core curriculum provides fundamental subjects to strengthen students' general competencies;</li> <li>2. Skill-based: the core curriculum provides professional subjects and practicum, which encompasses practical skills and cooperative education, to strengthen students' professional skills and occupational ability.</li> <li>3. Comprehensive: the curriculum provides fundamental subjects, professional subjects and practicum that guides students to appropriate channels;</li> <li>4. Specialty-based: the core curriculum features a specific subject or field to target students with a special aptitude.</li> </ol>
Article 6	<p>Except specialty-based, schools of all classifications specified in the previous Article may establish programs, disciplines and areas.</p> <p>Regular senior high school certified to be established by the corresponding competent authorities specified in Subparagraphs of Paragraph 2, Article 4 (herein referred to as the corresponding competent authorities) may establish professional programs, disciplines, and comprehensive programs.</p> <p>Skill-based senior high school shall, in principle, be established in one category; however, the school may encompass two categories if necessary. Each category shall have several programs, and each program shall incorporate more than one discipline, otherwise the program will be degenerated. Once the school is certified by the corresponding competent authority, it may establish regular as well as comprehensive high school programs.</p> <p>School categories stated in the previous Paragraph refer to those programs and disciplines that address the need of national development and industries growth; its classification of categories shall follow curricular guidelines stipulated by the central competent authority.</p> <p>Study programs stated in Paragraphs 1 to 3 refer to professional disciplines and areas that are of homogenous nature; classification of programs shall follow curricular guidelines stipulated by the central competent authority.</p> <p>Regulations of the establishment, conversion, and termination of senior high schools and other relevant matters shall be stipulated by the central competent authority.</p>
Article 7	<p>Senior high schools certified by the corresponding competent authorities may establish junior high school division in the same special municipality, or county (city).</p> <p>In consideration of consistent education in junior high and elementary schools, once certified by the corresponding competent authorities, senior high schools that have established affiliated junior high school division can establish elementary school division in the same special municipality, or county (city).</p> <p>Relevant regulations of the Compulsory Education Act are applicable to the junior high school and elementary school division thereby established.</p>

Article 8	<p>To provide those who have received national education with opportunities of further education, senior high schools may establish continuing education division to conduct further education once certified by the corresponding competent authorities.</p> <p>Course content of senior high schools' continuing education division shall address students' learning and social needs, and the curriculum shall be designed according to curricular guidelines stipulated by the central competent authority. They may offer daily weekday courses, non-daily weekday courses, or weekend courses. It may be applicable to inmates in correctional institutions.</p> <p>Learning evaluation approaches for students of continuing education division at senior high schools shall be stipulated by the central competent authority; students who complete courses with passing grades shall be permitted to graduate.</p>
Article 9	<p>Names of public senior high schools shall be designated by the corresponding competent authorities based on the classification of school categories, study programs and disciplines. Private senior high schools may not use place names as their school names; its name shall be designated by the school's judicial person during the process of incorporation. Without the approval of the corresponding competent authorities, school names can not be changed.</p> <p>If the name of a private senior high school confuses the general public with another school, the corresponding competent authorities shall request it to change its name.</p> <p>Senior high schools established before this Act is implemented may carry their original names.</p>
Article 10	<p>To conform to the development of industries and provide students with workplace hands-on learning and cooperative education, senior high schools may conduct cooperative education programs; relevant matters regarding cooperative education shall be stipulated by other acts.</p> <p>To address the demand of lifelong learning, senior high schools may cooperate with public and private sectors and social groups to conduct continuing education programs; regulations regarding the conduction shall be stipulated by the corresponding competent authorities.</p>
Article 11	<p>Senior high schools shall routinely conduct self-evaluation on matters such as teaching, mentoring, school affair administration and student participation; the regulations shall be stipulated by each school.</p> <p>To help senior high schools excel, the competent authorities shall routinely conduct school evaluation and declare the results which serve as an indicator to guide schools' adjustment and development; regulations of evaluation shall be stipulated by the corresponding competent authorities.</p>
Article 12	<p>To promote diversified development of education and to improve education quality, the competent authorities may assign or approve public and private senior high schools to conduct overall or partial experimental program; regulations of the experimental duration, scope, application requirements and procedures and other relevant matters shall be stipulated by the central competent authority.</p> <p>For schools that implement overall or partial experimental program, its experimental curriculum may lies outside the scope of the curricular guidelines stipulated in Paragraph 1 of Article 43. For schools that implement overall experimental program of education, its establishment requirements may lies outside the scope of the regulations stipulated in Paragraph 4 of Article 4.</p>

---

Article 13	To protect students' learning right and parents' right of educational choice, senior high school education can be conducted with non-school mode in terms of experimental education, managed through individuals, groups, or institutions. Regulations regarding the following relevant matters: application requirements and procedures, students' qualification of education, courses, management of student status, assessment of learning, graduation requirements, visiting and mentoring, fees and governmental subsidy, shall be stipulated by the central competent authority.

Article 23	<p>Public senior high school shall establish budget, accounting and statistics (BAS) branch according to relevant laws to conduct budgeting, accounting and statistics matters accordingly.</p> <p>Private senior high school shall establish accounting office and appoint accounting personnel according the Private School Act and its relevant regulations.</p>
Article 24	<p>Regulations governing the establishment of organizations and standards of staffing shall be stipulated by the central competent authority.</p> <p>If nursing teachers, who are employed according to regulations before this Act is enacted, continue to serve after this Act is enacted, their staffing standards shall follow regulation stipulated in the previous Paragraph.</p>

Article 25	<p>Senior high schools shall conduct general meetings to examine matters as follows:</p> <ol style="list-style-type: none"> <li>1. Important matters such as school development and campus master plans;</li> <li>2. Important rules and regulations stipulated according to the laws or implied within one's duty;</li> <li>3. Academic affairs, student affairs, general affairs, and other important campus matters;</li> <li>4. Other matters which shall be resolved by general meetings based on applicable laws.</li> </ol> <p>Members of the general meeting include the principal, the director or chairperson of each unit, full-time teachers or representatives of teachers, representatives of staff members, representatives of the parents' association, and elected student representatives; the number, ratio, recruitment, and resolution approaches shall be prescribed by each school and reported to the competent authority for their records. General meetings shall be convened and hosted by the principal at least once every semester; the principal shall convene a general meeting within 15 days of the date when more than 1/5 of the meeting's representatives request an ad-hoc general meeting take place.</p>
Article 26	<p>Besides committees that shall be established in accordance with the law, to promote and develop school affairs, a senior high school may establish all kinds of committees based on the general meeting's resolution; the composition and mission of those committees shall be prescribed by each school.</p>
Article 27	<p>Senior high school shall establish a parents' association, comprising of parents of the students. The parents' association shall be named after its school. The regulations governing the organization's rules and regulations, mission, number of committee members, ways of recruiting committee members, term, election and recall, procedural rules, source of funds, financial management and operation, and other relevant issues shall be stipulated by the corresponding competent authorities.</p>
Chapter V Employment and Evaluation of Faculty and Staff	
Article 28	<p>Senior high schools teachers shall be appointed on full-time basis; under special circumstances, teachers may be hired on part-time basis.</p> <p>A senior high school may jointly appoint a teacher with another school because of interschool cooperation, course needs, or under special circumstances, and the teacher shall be appointed on a full-time basis in one of the schools. The requirements and ratio limitation for jointly appointed teachers, their rights and obligations, and other matters shall be stipulated by the central competent authority.</p> <p>Teacher transfer among public senior high schools shall be handled by the transfer panel established independently or jointly by the competent authorities; organization, transfer requirements and operational guidelines of such transfer panel shall be stipulated by the corresponding competent authorities.</p>

Article 29	Senior high schools may appoint teachers of with professional or technical expertise. Teachers with practical experience shall be selected among qualified candidates to teach professional or technical subjects; their employment, dismissal, suspension, denial of a renewed employment, leave of absence, complaints, pay, benefits, retirement, insurance policy, and resign benefit shall follow the teacher's relevant laws; their ranking, qualification, advanced study, performance evaluation, and other rights and interests shall be stipulated by the central competent authority.
Article 30	Senior high schools shall have one class room instructor for each class, whose appointment will be determined by the principal among full-time teachers to serve on a full time basis. However, the number of class room instructor can be increased in cooperative education class if necessary.
Article 31	Senior high schools shall employ directors of military instruction and military instructors; regulations regarding their staffing, staff number, qualification, and selection matters shall be stipulated by the central competent authority along with the Ministry of National Defense; their responsibilities, transfer, promotion, advanced study, complaint and other matters shall be stipulated by the central competent authority
Article 32	The standard of weekly teaching hours for public senior high schools' full-time teachers, jointly employed teachers, professional and technical teachers, as well as those who assume class room instructor duty, or administrative post on a part time basis, shall be stipulated by the corresponding competent authorities.
Article 33	The competent authorities shall conduct yearly evaluation on public senior high school teachers; the evaluation committee's organization, mission, evaluation procedure, evaluation indicators, evaluation grades, categories of rewards and penalties, notification of results and other relevant matters shall be stipulated by the central competent authority.
Chapter VI Student Qualification, Admission, and Division of Attendance Area	
Article 34	Junior high school graduates or those with high school equivalent, are qualified to be admitted to senior high schools; standards of identifying high school equivalent shall be stipulated by the central competent authority.
Article 35	<p>To develop multiple intelligences and cultivate innovative graduates, senior high schools shall adopt the diversified entrance program for its student recruitment. The diversified entrance program focuses on open admission; schools certified by the competent authorities may conduct specialty enrollment subject to certain quotas.</p> <p>The quotas for open admission in each school district shall account for more than 75% of the total number for authorized entering class in the school year of 103, and shall be gradually phrased to its increase throughout the years; until it reaches more than 85% of entering class in the school year of 108.</p> <p>The total quotas of open admission includes direct admission quota for graduates from the affiliated junior high school division; regulations governing the quotas for direct admission are as follows:</p> <ol style="list-style-type: none"> <li>1. Public senior high schools' quotas for direct admission: no higher than 35% of the number of graduates from the affiliated junior high division in the same year.</li> <li>2. Special municipal or county (city) senior high schools' quotas for direct admission: stipulated by the municipal or county (city) competent authority.</li> <li>3. Private senior high schools' quotas for direct admission: no higher than 60% of the schools' total number of authorized entering class for</li> </ol>

the school year of 103. However, if a school's number of students in its affiliated junior high school division is less than that of the school's authorized entering class, the quotas for direct admission may not be higher than 60% of the number of graduates from its affiliated high school division in the same year; the percentage shall be gradually phrased down throughout the years, until it reaches (no higher than) 50% in the school year of 108.

4. If regulations governing the percentage of direct admission stipulated by each school district are more restrictive than this Act, such regulations shall be followed instead.

If private senior high schools violate acts and regulations by using examination or special screening device to admit students to their junior high and elementary divisions and such cases have been confirmed by the corresponding competent authorities, the authorized quotas for direct admission stated in Subparagraph 3 of the previous Paragraph for those schools shall be deducted from the following school years based on the percentage of violation cases.

The percentage of open admission offered by each school for the school year of 103 may not be lower than 25% of the school's total quotas for authorized entering class, subject to review and adjustment in the following years.

Private senior high schools that are not established through the government grant and do not receive incentives and subsidies from government based on Article 59 of the Private School Act, and its tuitions are not co-paid by government based on Article 56, may formulate curriculum plans, reasons of applying for independent entrance, as well as entrance scope and implementation, and conduct independent enrollment without being restricted by the enrollment regulations of this Act, after reporting to and certified by the corresponding competent authorities, subject to an open admission quotas that is no lower than 15% of each school's total quotas for authorized entering class. Schools that conduct direct admission based on Paragraph 3 shall follow the procedure and ranking regulations stipulated by Paragraph 4 of Article 37 to settle for a tie when quotas have been exceeded. Each junior high school shall help its students in their self-realization and exploration, providing them with adaptive counseling depending on their ability, inclination, and interest, and shall advise them on further education choices and help them securing admission to the senior high schools.

Article 36

If private senior high schools' admission programs are not formulated and implemented in accordance with the regulations of this Act, and are not reported and certified by the competent authority, the tuition-waiver regulation in Article 56 will not be applicable to their students. Private senior high schools shall support the implementation of 12-year national education based on the following principles:

1. Cultivating students to achieve balanced development in five aspects of education;
2. Hiring sufficient qualified teachers to teach based on their expertise;
3. Providing students with counseling for adaptive development;
4. Implementing normalization of teaching consistently.

Article 37	<p>Students shall apply to senior high schools that conduct the open admission program without taking the entrance examination.</p> <p>Under the open admission program, full admission shall be granted to all applicants if the number of student applicants does not exceed the competent authority's authorized number for entering class.</p> <p>Under the open admission program, if the number of student applicants exceeds the competent authority's authorized number for entering class, the final student enrollment number shall be stipulated by the special municipal city, county (city) competent authorities along with the competent authority of each school district and reported to the central competent authority for record. However, skill-based and specialty-based senior high schools are not subject to such requirement as they need special enrollment programs tailored for their need; they can formulate their curriculum plans, enrollment plans, quota and open admission procedure, and report to the corresponding competent authorities for approval.</p> <p>Regarding the previous Paragraph, students' performance in health and sports, arts and humanities, and integrative activity may be used in cases where a tie need to be settled, while performances in other learning areas should not be counted as tie breaker.</p> <p>Regulations regarding the tie settlement mechanism of open admission program in cases where quotas have been exceeded, the related procedures, and other matters shall be declared within one month from the date when this Act is enacted for the school year of 103, while for future school years, the regulations shall be declared one year in advance.</p>
Article 38	<p>Senior high schools that conduct specialty enrollment shall select their students through academic subject exams, or through special screening process such as technical subject performance.</p> <p>The corresponding competent authorities shall declare specialty enrollment's requirements and quotas based on senior high schools' evaluation results, yearly enrollment performances, student performances, and curriculum plans, etc.</p> <p>Senior high schools may conduct its specialty enrollment after formulating plans and quotas according to the announcement stated in the previous Paragraph, and report to the corresponding competent authorities for approval; each competent authority shall review the application on a school by school and class by class basis, and state the reasons of its approval.</p> <p>The content of the plans mentioned in the previous Paragraph shall include specialty enrollment's goal, curriculum and teaching plan, as well as career and employment plan for students.</p> <p>Specialty enrollment that select students through academic subject exams stated in Paragraph 1 shall be conducted after the open admission. The remaining quotas after the open admission may not be transferred to specialty enrollment.</p>
Article 39	<p>Municipal or county (city) competent authority shall work independently or jointly with other competent authorities by taking into account of each school's source of new students from (and outside of) an administrative district, common living area among different districts, access to transportation, and school type and distribution; to plan on school districts in the previous two Articles, and report to the central competent authority for approval before announced.</p> <p>Before approving matters based on the previous Paragraph, the central competent authority may invite relevant municipal or county (city) competent authorities, junior high and senior high school representatives as well as scholars and professionals for relevant discussions.</p>

Article 40 Regulations regarding matters of the following and other matters to be followed mentioned in Article 35 to Article 39 shall be stipulated by the central competent authority jointly with the municipal or county (city) competent authority: the diversified entrance program and its target students, implementation district, range and approaches, and application deadline; quotas and percentage of each entrance program; ways of examination and special screening for specialty enrollment; principles and procedure of dividing school districts; each competent authority's and school's organizations and responsibilities; private senior high schools whose admissions are not subject to restrictions, its range, as well as their ranges, applications and procedures.

Article 41 The following students are not restricted by the previous Article's operational guidelines in terms of their admission; their identity, quotas, application method, schedule, principles of enrollment, and other important matters regarding admission shall be stipulated by the central competent authority:

1. Students with disabilities;
2. Indigenous students;
3. Students from major disaster-stricken areas;
4. Children of governmental expatriate employees;
5. Students with outstanding performances in international competitions of academic or technical subjects;
6. Students with outstanding performances in skill-based competitions;
7. Students with outstanding performances in sports;
8. Veterans;
9. Overseas Chinese students;
10. Mongolian and Tibetan students;
11. Foreign students;
12. Students certified and placed via special cases due to humanitarian concerns, international support, or other special channels;

For students listed in Subparagraph 1 and Subparagraph 2 of the previous Paragraph, regulation for their entrance admission (affirmative action) shall be stipulated by the Special Education Act and the Indigenous Peoples' Education Act.

## Chapter VII Curriculum and Learning Assessment

Article 42 Senior high school students' residence period in school is three years. Depending on classification, programs and disciplines of special nature, school may apply for increase or decrease of residence period; subject to certification by the central competent authority through submission from corresponding competent authorities. Students that have not completed required courses within the residence period may extend it by two years at most. Students with disabilities may extend it by four years at most, depending on their physical and mental conditions and learning needs. Students who are pregnant, in labor, or have to raise their children under three years old may extend the residence period by four years at most.

Article 43 The central competent authority shall stipulate senior high schools' curriculum guidelines and relevant regulations related to their implementation to serve as a guide for the schools' planning and implementation of the curriculum; schools may integrate social resources with the planning of the curriculum to enrich teaching activities. For the stipulation of the curriculum guidelines referred to in the previous paragraph, in addition to existing curriculum research and

development institutions established by the central competent authority, other organizations, schools, judicial persons, and groups from education-related disciplines may also propose drafts of curriculum guidelines to be examined by the curriculum review committee. Regulations regarding the proposals, the procedures, and other relevant matters shall be stipulated by the central competent authority.

The research, development, examination, and implementation of the curriculum guidelines shall observe the principles of respecting ethnic diversity, gender equality, transparency, and non-partisanship.

To review the curriculum guidelines, the central competent authority shall establish a curriculum review committee (hereinafter referred to as the review committee); the review committee shall be divided into a plenary and concurrent sessions.

The plenary session is composed of 41 to 49 members including both governmental and non-governmental representatives. The number of governmental representatives shall not exceed one-quarter of the total number of committee members.

Members who serve as governmental representatives at the plenary session shall be nominated from candidates working in central and local government agencies and appointed by the President of the Executive Yuan by the Ministry of Education. The appointed persons may then be appointed, dismissed, or re-appointed to a different position in accordance with the nature of his or her duty.

Members who serve as non-governmental representatives are appointed in accordance with the following procedures:

1. The Executive Yuan shall nominate candidates from experts and scholars with expertise in education, members of teachers' associations, members of principals' associations, members of parents' associations, members of non-governmental organizations related to education, and students' representatives to be reviewed and approved by the member selection committee. Any candidate who wins a majority will be appointed by the President of the Executive Yuan.

2. The member selection committee mentioned in the previous paragraph will consist of 11 to 15 public figures for social justice as recommended by the Legislative Yuan.

Members of the review committee serve a term of four years and are eligible for re-appointment when the term of their service expires. The ratio of committee members represented by a single gender should be no less than one-third. Both governmental representatives and non-governmental representatives shall include indigenous peoples. For members who are appointed for the first time as non-governmental representatives, one-half of these members shall serve a term of two years.

Representatives from both central and local people's representative bodies shall not serve as members of the member selection committee.

The plenary session of the review committee shall be in charge of the following functions:

1. Examining the general curriculum guidelines and curriculum guidelines for all disciplines, subjects, and course groups.
2. Examining the principles for making revisions to the school curriculum.
3. Other decisions defined by applicable laws to be made at the review committee.

All resolutions made at the plenary session of the review committee shall require more than two thirds of all members to attend, and

resolution of the session shall require the consent of more than half of the members present at the meeting.  
Regulations regarding the organization and operation of the plenary and concurrent sessions of the review committee shall be stipulated by the central competent authority.

#### Article 43-2

- |            |  |
|------------|--|
